

SURFACE SOLUTIONS.

From wood effect wall panels in MDF to stain glass in acrylic, we can bring your **custom** design to life in an affordable material.

Our in-house team have decades of experience in creating custom surfaces, providing an end-to-end service from design to install.

ENDLESS APPLICATION

Ceilings, walls, floors, lifts, trains, doors.

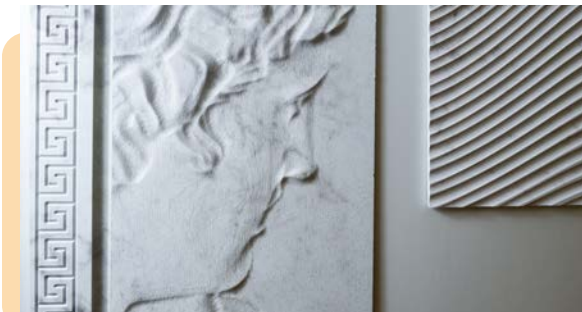

There's no limit to where your design can go. We have resurfaced lifts, customised glass, covered floors and personalised trains all over the UK.

**THE SPEC+
SUSTAINABILITY**

THE SPEC

Our 3D surface solutions can be custom made to any thickness, shape or size you require. Our base products come in RFPVC, Acrylic, MDF and Profile, with varying levels of fire rating and usually 5 to 10 mm thick. Applied with adhesive or magnetic application, your product is made to last.

-SUSTAINABILITY-

**SOLAR
ENERGY**
powered

**CARBON
NEUTRAL**
by 2045

Reuse, Reduce, Recycle, Rethink.

We can help our customers be more sustainable by design. Ensuring our products last gives years of additional life to our customers assets that would otherwise go to landfill.

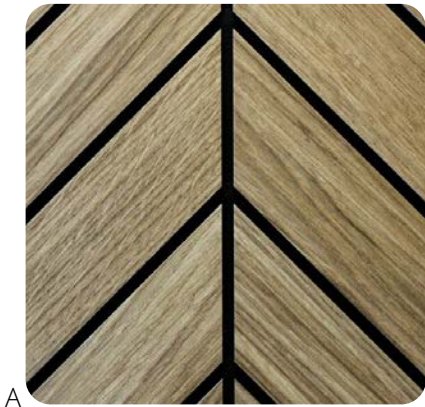

Our products can be applied over damage, wrapped over dated branding, and have UV resistant, anti-microbial and anti-graffiti properties, ensuring it won't fade, shrink or show signs of wear and tear for many years to come.

**Products that last mean less waste;
a more sustainable solution.**

0.73%
waste reduction
YTD

Our solar powered factory produces our 3D panels with high efficiency meaning as little waste as possible, all the while helping our customers to achieve waste reduction by repairing and restoring life to old assets. We **rethink** the recycle process and combat disposability.
